PRECISION CNC CONSTRUCTION, ACOUSTICALLY INERT CABINET DESIGN

Ensuring that this beauty is not just skin deep, the Ultra Center cabinet is precision CNC-manufactured with extensive internal blocking and bracing, resulting in perfect edge and panel alignment, no resonances and excellent rigidity - ensuring you hear nothing but pure and uncolored sound.

PREMIUM DRIVERS AND CROSSOVERS

SVS uses the highest quality drivers, combined with SoundMatch crossover networks, to ensure the highest sound quality. Our aluminum dome tweeter features an optimized diffuser to eliminate diffraction artifacts. The midrange and woofers utilizes an FEA-designed motor and suspension, a shorting ring to reduce distortion, and treated cones to minimize resonances. The crossover network was designed using sophisticated software and extensive electroacoustical measurements, and features premium-grade capacitors, air-core inductors and printed circuit boards.

STUNNING SOUND QUALITY

Delivering room-filling presence, natural timbre, powerful dynamics, and outstanding vocal reproduction, the Ultra Center will immerse the listener in the cinema experience, and also provide an outstanding foundation for multi-channel music.
