TOP CLASS POWERED BLUETOOTH® SPEAKER FOR GREAT STEREO SOUND

TOP CLASS POWERED BLUETOOTH® SPEAKER FOR GREAT STEREO SOUND

- Pleasant stereo sound with deep and powerful bass reproduction
- Music streaming via Bluetooth® with the high-end audio standard Qualcomm® aptX™
- Easy control by large rotary knob & via paired smartphone
- High-performance digital amplifier of the latest generation with a total output power of 80 watts
- Classic design with black fabric grill, dark mocca wood decor and satin golden applications

TOP CLASS POWERED BLUETOOTH® SPEAKER FOR GREAT STEREO SOUND

DRIVERS

- 2 x 2.3" special full-range speakers with performance-optimised paper cone and powerful ferrite magnet system
- Integrated 3.3" subwoofer with particularly linear, low-loss long-excursion drive for powerful and dynamic bass reproduction
- 4" mm long-throw bass radiator for best deep bass reproduction without any air-flow noise
- All speaker drivers are Klippel® optimised for extremely low distortions at all volumes and for detailed, precise sound

CABINET

- Very solid low-resonance construction made of E1 MDF panels
- Classic and timeless design with dark mocca structured foil and satin gold elements
- Integrated front cover with tweed acoustic fabric and stylish metal application
- MDF cabinet feet with resonance-damping rubber pads for stability on all floors
- Compact dimensions allow to place the system everywhere as mini stereo system and high-quality Bluetooth® loudspeaker

AMPLIFIER & CONNECTIONS

- Bluetooth® input with the high-end audio standard Qualcomm® aptX™ grants music transmission in CD quality
- Additional analogue 3.5 mm stereo input for connecting portable audio sources
- Control panel on the right side with large rotary knob for source selection and volume
- LED display on the control panel for status and selected source
- Low standby power consumption (< 0.5 watts) with auto standby function

CROSSOVER

- Fully digital DSP-based filtering and frequency response correction for best sound at all volumes
