

Linn Koil

Moving coil cartridge

Koil Cartridge

A formidable, entry-level cartridge; Koil is a superb first step onto the ladder of premium moving coil cartridges.

This **Majik**-level cartridge offers a step up in performance from Adikt; either as an upgrade, or at the point of purchasing a new Majik LP12..

Choose Koil if you intend to use your Majik LP12 with a moving coil phono preamplifier.

Key Points

- Moving coil (MC)
- Nude Microlinear Stylus
- Low mass boron cantilever

Technical Specifications

	Introduction:	2022
	Type :	Moving Coil Tracking
	Impedance:	12 Ω
	Recommend capacitance:	100 nF
	Recommended Load:	42 Ω ~ 1k Ω (determine optimum by listening, baseline 100 Ω)
	Output voltage:	0.4mV @ 3.54 cm/s
	Stylus:	Nude Microlinear
	Cantilever	Boron

	Weight:	7.6 grams
	Crosstalk:	> 27dB
	Channel balance at 1kHz:	< 1dB
	Tracking force:	1.8 - 2.2g (2.0g nom)
