

WIRELESS PARTY SPEAKER

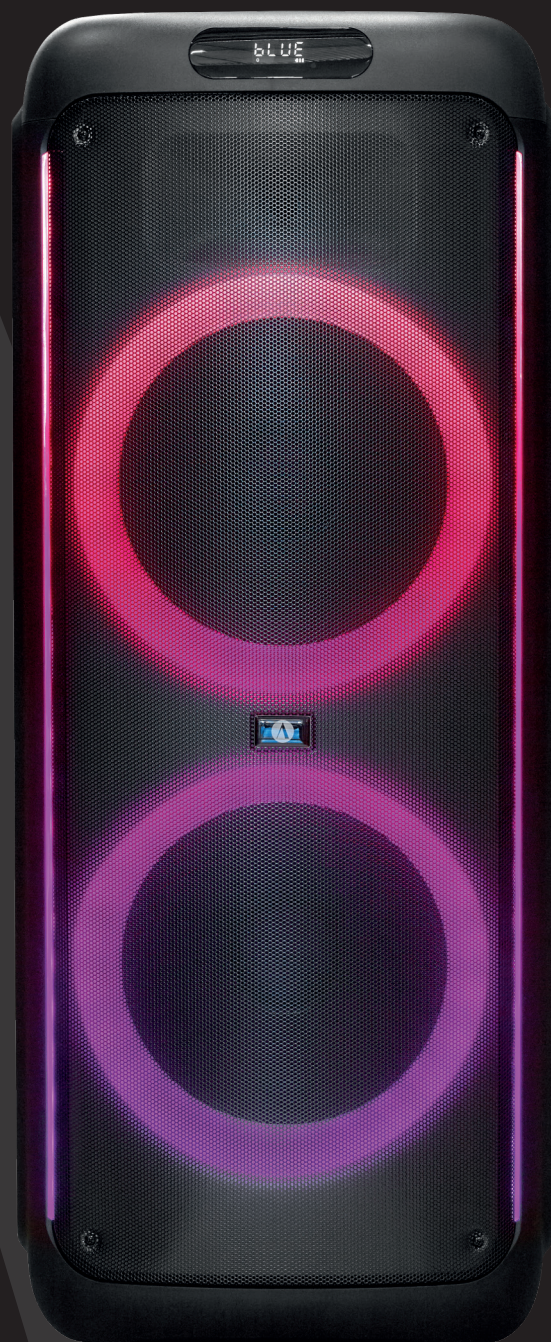

Epic sound. Equipped with dual 12-inch elements that pump out sound that can be heard from afar. Don't be afraid to turn up the volume, Haze XXL is built for it. Want even more "oomph" in the sound image? With the press of a button, you can wirelessly pair two Haze XXL for grand stereo sound.

The sleek speaker with its own light show. With decorative LED lights that synchronize with the music, you get a pleasant party atmosphere. Arcsound Haze XXL offers several different types of light shows. Strobe, pulsating effects, perfectly synchronized with your favorite music. Want all the attention on you? No problem. With a simple button press, you can change or turn off the light effects.

A trusted companion at events. HAZE XXL is portable! Take it with you to the next party. Thanks to its two wheels, it is portable and can join in on your adventures. A wireless microphone is also included in the box. Give a speech, do some karaoke, or welcome friends, family, or audience. Haze is made to be in the center of the event.

With Haze XXL, the party never ends. With up to 11 hours of battery life, the party can continue well into the early hours of the day. Want the party to never end? It doesn't have to. Plug Haze XXL into the wall outlet and keep playing!

Good connectivity, great potential. Whatever you want to play, Haze XXL is here for you: wirelessly via Bluetooth 5.0, 3.5mm AUX, guitar input, and much more!
